The attention of user(s) is draw to the following statement regarding liability for negligence.

#### **LIABILITY FOR NEGLIGENCE**

The Education (School Councils) Act 1975 provides for college councils to be constituted by the Governor in Council. When a constituted council is carrying out its functions under and in accordance with the Act, the college council represents the Crown. All activities authorised by the College Council must be ratified by a college council minute. With this provision the members and employees of a council are well protected against liability for damages arising from negligence while performing their functions as agents or servants of the Crown. This means that College Council members are not liable individually for any such damages.

Where a function is conducted by a body other than the college council, <u>public risk is the</u> <u>responsibility of the organisers of such functions</u>. College Council makes the taking of public risk cover a condition of use of college premises.

College Council may use its powers as agent and servant of the Crown by sponsoring community education programs and thus avoiding the need for public risk cover and liability situations.

This statement means that all persons or groups which conduct activities which are not College council activities <u>must arrange insurance cover</u> either through Jardine Australia Broking Service (the College is an agent) or with another service of your own choice. <u>Evidence must be provided of adequate insurance cover prior to this permission being granted by College Council</u>. Cost is \$32.00.
