DIMBOOLA MEMORIAL SECONDARY COLLEGE

Term 4, Week 4, 30th October 2026

"Facta non Verba"

Dimboola Memorial Secondary College would like to acknowledge the Traditional Owners of the land on which the school is located: the Wotjobaluk, Jaadwa, Jadwadjal, Wergaia and Jupagulk peoples. We acknowledge their stories, traditions and culture and wish to pay our respects to Elders past, present and emerging.

Phone: 53891460 www.dmsc.vic.edu.au dimboola.memorial.sc@education.vic.gov.au https://dmsc.xuno.com.au

Principal's Message

This Week:
Our Year 12s started exams on Tuesday with the VCAA English Exam and the VM&VPC exams. Our new progress pride flag board was unveiled. This was created by our Hands on Learning team to further provide an inclusive environment for our students.

School Magazine:
Each year DMSC provides families with a free copy of our school magazine. This year we are giving families the opportunity to order and pre-purchase an additional copy. They are available on Qkr! for $20 under the EVENTS section. Orders close on November the 19th.

Reminder:
Every Tuesday and Thursday morning we run a Breakfast Club at the Hospitality Centre. Please encourage your child to attend if they need some extra sustenance.
This Monday is a Pupil Free Day and Tuesday is a public holiday for Melbourne Cup. Have a safe and enjoyable long weekend.

Charlotte Pyers

Unit 4 Work	**Senior School Subjects**	**Due Date**
Unit 4 PE	Exam Revision	
Unit 4 Biology	VCAA 2026 Biology Exam	Monday 2nd Nov

Year 7 – Cooking Yo-Yos

German Day

This week Dimboola Memorial Secondary College hosted the Goethe-Institut on Tour: Experience German in Your Region program on Tuesday 27 and Wednesday 28 October 2026. The Institut's role is to promote the learning and teaching of German around the world. They offer German language courses, educational resources and cultural programs for students, both in Australia and in Germany. The program began on Tuesday afternoon with a networking meeting at the college for local German teachers.

On Wednesday Year 8 & 9 students from DMSC and Murtoa were involved in a German Day run by the Goethe Institut. The students took part in an engaging day of German language activities, beginning with a welcome and trivia session before exploring a range of interactive language learning stations. The students then enjoyed lunch, catered by Mrs Schache, and jam donuts from the local bakery. After lunch students were challenged to make their own German posters, with the best earning the prizes. These posters will all receive prizes for their creativity, design and information.

The program provided a fantastic opportunity for students to develop their language skills, learn more about German culture and enjoy an interactive experience beyond the traditional classroom. It was wonderful to welcome the Goethe-Institut to Dimboola and provide our students and the wider regional community with the opportunity to experience German language and culture right here in our region.

STUDY SMARTER

Techniques for Studying **SMARTER**, Not **HARDER**

Term 4 Study Guide

16 Ways to Get Ready for Exams

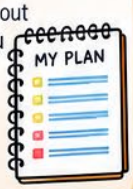
Plan well. Study smart. Believe in yourself.

1 Start with a study stocktake

Make three lists:
I know this
I sort of know this
I don't know this yet.
Focus on the orange and red lists.

2 Make a plan

Use a weekly planner and be specific about when and what you will study. Every study session needs a job.



3 Stop rereading, Start retrieving.

Close your notes and write down everything you remember. Test yourself instead of just rereading. Practise producing the answer.

4 Use flashcards properly

Write your own cards, then test yourself. Don't flip too quickly. Focus on what you don't know and shuffle them regularly.

5 Space your learning

Study a little and often. Come back to information over several days. Try the "yesterday – last week – today" routine.

6 Study in short, focused bursts

Try 25 minutes focused work, then a 5-minute break. During your focus time, work on one thing and give it your full attention.

7 Get your phone out of the way

Turn off notifications, use Do Not Disturb or put your phone in another room. Remove the distractions so you can focus.

8 Teach someone

Explain a concept to a friend, family member, or even your pet! If you get stuck, you've found a gap to learn. Teaching shows what you really know.

9 Practise like it is the exam

Use past questions and set a timer. Start with your notes, then try without them. Study your mistakes to see what you need to learn.

10 Mix up how you learn

If something isn't sticking, try a different strategy – draw it, say it, teach it, make a diagram, use a mnemonic, create a quiz or make connections.

11 Create memory hooks

Use acronyms, pictures, stories, rhymes or associations. The stranger the connection, the easier it can be to remember.

12 Make a mistake list

Keep a page for each subject. Write down what you get wrong and why. This shows you exactly where to focus next.

13 Look after your brain

Get enough sleep, eat regularly, drink water, move your body and take breaks. Your brain is the equipment you're taking into the exam!

14 The week before an exam

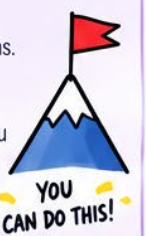
Focus on retrieval and practice. Test yourself, review your mistake list and complete practice questions. Don't try to relearn everything at the last minute.

15 The night before

Do a short review of key information. Pack what you need, set your alarm and get a good night's sleep.

16 On exam day

Stay calm. Avoid panic conversations. Read questions carefully, watch your time and if you get stuck, move on and come back.



Small steps. Big results.

You don't have to be perfect. Just prepared.

EPIC THUNDERSTORM ASTHMA CAMPAIGN

Get ready for grass pollen season

Grass pollen season brings an increase in asthma and hay fever. During the season, a high grass pollen count and a certain type of thunderstorm can also trigger thunderstorm asthma.

For people with asthma or hay fever, especially those who experience wheezing or coughing with their hay fever, thunderstorm asthma can be sudden, serious and even life threatening.

In Victoria, the grass pollen season typically runs from 1 October to 31 December. Take action to prepare and protect yourself and people in your care this grass pollen season.

Find out more on the Better Health Channel <www.betterhealth.vic.gov.au/thunderstormasthma>.

Protect yourself this pollen season

Grass pollen season brings an increase in asthma and hay fever. It also brings the chance of thunderstorm asthma. For people with asthma or hay fever, especially those who experience wheezing and coughing with their hay fever, thunderstorm asthma can be sudden, serious and even life threatening.

In Victoria, the grass pollen season runs from 1 October to 31 December. There are things you can do to prepare and protect yourself and those in your care:

- It's important for everyone in the community to know **asthma first aid** so they know what to do if they or someone is having an asthma attack. Remember you can get an asthma reliever puffer from a pharmacy without a prescription.
- **Avoid being outside during thunderstorms** during grass pollen season – especially in the wind gusts that come before the storm. Go inside and close your doors and windows. Turn off any air conditioner on that brings outside air in (e.g. evaporative air conditioners).
- **If you've ever had asthma** – talk to your doctor about what you can do to help protect yourself from the risk of thunderstorm asthma this pollen season, including updating your asthma action plan. Remember, taking an asthma preventer as prescribed is key to preventing asthma, including thunderstorm asthma.
- **If you've ever had hay fever** – see your pharmacist to make sure you don't also have asthma and discuss how to stay safe during grass pollen season. Your pharmacist may refer you to your GP if required.
- Monitor the epidemic thunderstorm asthma risk forecast on the **Vic Emergency thunderstorm asthma forecast webpage** or download the VicEmergency app (App Store or Google Play). You can set up a 'watch zone' for your location to receive advice and warnings about potential epidemic thunderstorm asthma events during the grass pollen season.

Protect yourself this pollen season – preventing and managing asthma matters.

For more information visit the Better Health Channel <www.betterhealth.vic.gov.au/thunderstormasthma>

Master of Project Management

Gain a diverse and in-demand skillset for a rewarding project-management career in business, industry or the public sector, when you study the Master of Project Management at Victoria University.

This 2-year project-management course, endorsed by the Australian Institute of Project Management (AIPM), is designed for both current and aspiring project managers. It equips students with advanced project-management techniques that can be applied across various industries, including:

- construction
- engineering
- health services
- information technology
- private business
- public sector.

The course includes the latest project management methods, trending across the various industries. The lecturers are experienced project managers, and the program is industry-run and led. Through strong connections to industry students are kept up to date on current project management requirements. Some of the latest global trends in project management are also taught, including being customer-focused and agile.

Studying the Doctor of Medicine at Deakin

Deakin is one of three universities in Victoria offering postgraduate medicine. Based at the Waurn Ponds campus, this 4-year course has a unique focus on rural and regional medicine, Indigenous Health, the development of human capabilities and service to marginalised communities.

There are three entry streams available for applicants: *General Entry Stream, Rural Training Stream,* and the *Indigenous Entry Stream.*

The first two years of the Doctor of Medicine include face-to-face learning activities at Waurn Ponds (Geelong). In years one and two, students learn in simulated clinical environments and dedicated medical sciences teaching spaces, along with small group learning sessions. Teaching activities are conducted both online and face-to-face. Students are also exposed to clinical experiences from early in the course, through placements with healthcare providers.

During years three and four students will undergo intensive clinical training within health services attached to one of Deakin's clinical schools. Students get to conduct their learning in the clinical environment, guided by experienced staff associated with the clinical schools.

Browse Doctor of Medicine at Deakin to find out more.

Federation University Sports Courses on offer from 2027

- ***New* Diploma of Sports Performance and Coaching**

Jointly delivered in 2027 by Federation University and Melbourne City Institute of Sport & Business (MCISB), this immersive, industry-embedded program bridges academic theory and professional practice.

Based face-to-face at Melbourne City Football Club's world-class City Football Academy, students will build a foundation in *human performance and coaching, exploring areas including movement, exercise programming, sport psychology, biomechanics and athlete development*.
Enrolments for the 2027 cohort are now open via direct expressions of interest.

Duration: 1 year full-time
Starting: 1 March or 26 July 2027
Location: Melbourne City Institute of Sport & Business

To find out more, or to register an interest, visit Sports Performance & Coaching.

- **Diploma of Business and Sports Management (Higher Education)**

Developed in partnership with Melbourne City Institute of Sport & Business, this 12-month diploma combines theory and hands-on industry training in the elite environment of Melbourne City Football Club's state-of-the-art facility, the City Football Academy Melbourne.

This program equips students with the business acumen and industry insights needed to thrive in a dynamic sports career. Best of all, the partnership with Melbourne City Football Club means students will have an extensive range of opportunities to build their professional network and gain work experience in both business and sport.

Find out more at Diploma of Business and Sports Management.

ACU Australian Catholic University Foundation Studies at ACU

Foundation Studies offers a pathway for domestic and international students without a recognised Year 12 qualification.

The program develops subject knowledge across key areas while preparing students for university-level study. Delivered in a supportive environment, students receive all required resources and guidance for a smooth transition to undergraduate study. The program can be completed on campus or online, and ACU covers the full cost.
Students who have a Year 12 qualification have the option to complete the program via accelerated mode (one-semester full-time) or part-time (two-semesters).

Find out more at ACU Foundation Studies.
